

SOUND POWERED TELEPHONE SYSTEMS

AMPLIFIERS

TYPE: SCM-TA-AM

MODEL: TA-AM-MG-1
(90 W Telephone amplifier)

SCM
SISTEMAS

FEATURES

- Sound-powered telephone system amplifier.
- Allows the connection of an external loudspeaker.
- Includes connection for headphones.
- Amplified low-level output (sound-powered teleph).
- Step volume control.
- Enclosure: anticorrosive aluminium.
- Painted according to military specifications.
- Includes metallic cableglands.

TECHNICAL SPECIFICATIONS

Power supply	110 VDC
Power consumption	130 W
Power output	90 W
Output impedance	4-8 W (70-100 V line)
Operating temperature	-20°C to +70°C
Relative humidity	Up to 95% (non condensing)
Assembly	Bulkhead
Weight	Approx 12.5 kg
