

ENGINE ORDER TELEGRAPHS SYSTEM

ENGINE ORDER TELEGRAPHS

TYPE: SCM-2L

MODEL: SC-14-CJ-2L

(Telegraph + watertight box)

SCM
SISTEMAS

FEATURES

- Order selection using rotatory switch.
- Order indication using LEDs.
- Material: ABS plastic (GW 120°C RAL 7035).
- Includes alarm devices for both supply and main failures.
- Allows external acoustic/luminous alarms activation (for noisy areas: engine room, etc.)
- Admits interface to communicate with the VDR.

TECHNICAL SPECIFICATIONS

Power supply	24 VDC
Power consumption	35 W
Acoustic alarm	104 dB(A) (1m)
Operating temperature	-20°C to +50°C
Relative humidity	Up to 95% (non condensing)
Assembly	Bulkhead
Weight	Approx 2 kg
IP-rating	65
