

ENGINE ORDER TELEGRAPHS SYSTEM

ENGINE ORDER TELEGRAPHS

TYPE: T-VDR

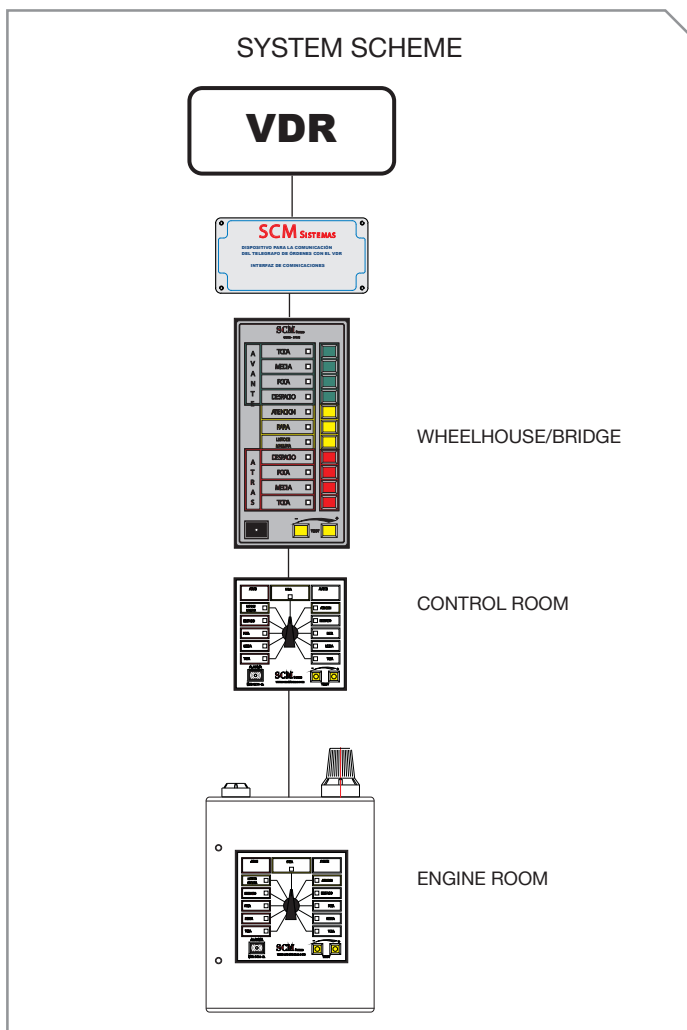

MODEL: T-VDR-2L

(VDR communication device)

FEATURES

- VDR communication transmitter device.
- Continuous recording of all telegraphic maneuvers.
- Material: aluminium.
- Communication protocol: RS-485 / RS-422
- Communication configuration: 9600 N 8 1
- Connection details: 2 lines to VDR, 4 lines to telegraph

TECHNICAL SPECIFICATIONS

Power supply	24 VDC
Power consumption	5 W
Operating temperature	-20°C to +50°C
Relative humidity	Up to 95% (non condensing)
Assembly	Bulkhead
Weight	Approx 1 kg
IP-rating	65
